PROSPECTUS OF THE NORTH CAROLINA STATESMAN.

THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina States man, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and th

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of gov-ernment, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State gov-ernment. In the field of editorial enterprise, there is ample room for those who are now holding poprinto far competition. The propagation of the printo far competition. The propagation of the printo far competitions of a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may and full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patron-

age, without interfering with the claims or rights of any now prosecuting the same great work. Although mainly devoted to the discussion of such political questions, as they arise, which affer the welfare of North Carolina, whether relating of the federal or State governments, or such local in-terests as may be of importance, it is nevertheless intended to make the Statesman' a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which our com-merce goes, shall be fully and accurately reported; nor will the attention of the conductors be less addressed to the subject of internal improvements, as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall al-ways command their fullest attention. To this \$258 00 they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of ex-

perience, in that progress, which promises the nevancement of the interests of North Carolina. The general objects of the proposed paper bei thus clearly indicated, it may not be amiss briefly to state the particular views which are to be sus-

tained by it as a political journal.

1st. Our purpose being to publish a paper purely democratic, according to the straightest requirements of that party, we shall advocate strict party organi-zation in its fullest and most comprehensive sense; an organization which originates in the popula an organization which originates in the popular will, expressed by the people in their primary as-semblies, and which has been so successfully in-troduced among the democracy of many of the ether States, by which the rank and file of the party are, in fact, those who indicate its decisions and, being all brought into action, express their will imperatively; thus, by open and fair dealing commanding respect and obedience; an organiza tion of the people, and not of intriguers; restoring power to those who by sufferance, have tolerated

ts temporary usurpation. 2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good del State ru, his platform of '75, we shall oppose government, corporations created by Congress for the purpose Prices from \$60 to \$175. Every instrument fully of internal improvement, the regulation of finance or any other measure inconsistent with the rights

3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the presen administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy
4th. They will advocate all such measures of in ternal improvement as promise by judicious prose cution to promote the interests of the people and benefits of a system already enjoyed by

office the beachts of a system already enjoyed by portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in relation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the pay. propriating the proceeds of their sales to the pay ment of the public debt, and the expenses of the ment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall pretest against it, and assert the right of the old States to the requitable share of the lands which remain. The power to dispose of the public lands being explicitly declared in the Constitution, the exerexpiritly described in a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress to squander the public lands, we adopt the patriotic language of Mr. Dobbin, and say that "al of North Carolina's sons, both whigs and demo

crats, should protest, and demand North Care lina's share of the public domain." 6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisition of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the nationa

The public often deceived could not believe the simple and sublime truths an acounced by the discoverer. which is perfectly irresistible.

The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular frame, or delicient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralyzation of the nerves of motion and sensation is *physical death*. Bear in mind, also, that, for every kind of nervous disease

CURE OF NERVOUS DISEASES. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, reviviñed, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. VIGORATING CORDIAL INVIGORATING CORDIAL,

PURELY Vegetable in its composition.—This invaluable Cordail is extracted from Herbs and Errts, which have been found after years of experience, by the most skillful physicians, to be possessed of qualities the most beneficial in the diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its safety. In cases of Impotency, Hæmorrhages, Disordered Sterility, Menstrustion, or Suspression of the Menses, Fluor Albus or Whites, or for Debtlity arising from any cause, such as weakness from sickness, where the patient has been confined to bed for some time, for females after confinement, abortion or miscarriage, this cordial cannot be excelled in its salutary effects; or in loss of muscular energy, irritability, physical

ordial cannot be excelled in its salutary effects; or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the heart, indigestion, sluggishness, decay of the procreative functions, nervousness, &c., where a rono medicine is required, it will be found equal if not superior to any compound ever used.

To Females.—Henry's In igorating Cordial is one of the most invaluable medicines in the many complaints to which females are subject. It assists nature to brace the whole system, check excesses, and creates renewed health and happiness. Less suffering, disease, and unhappiness among ladies would exist, were they generally to adopt the use of this cordial. Ladies who are debilitated by those obstructions which females are liable to, are restored by the use of a bottle or two to bloom and to vigor.

Young Men.—That solitary practice, so fatal to the existence of man, and it is the young who are most apt to become its victims, from an ignorance of the danger to which they subject themselves,

Marriage, lessening both mental and bodily capacity, hold! Henry's invigorating Cordial, a medicine that is purely vegetable, will aid nature to restore those important functions to a healthy state, and will prove of service to you. It possesses rare virtues, is a general remover of disease, and strengthener of the system.
